Folium Biosciences

To whom it may concern,

Folium Biosciences is compliant with Good Manufacturing Practices (GMP) for manufacturing, packaging, labeling, and distribution operations.

Folium's products are sold in supplement, pharmaceutical, and personal care markets. Therefore, its processes are designed and enforced in keeping with the latest published guidelines per FDA, ICH, and USP as they pertain to various operations. We take pride in our people and processes that are compliant with various regulatory requirements and invite customer visits/audits to share our best in class quality practices.
